### ACLS and BLS/CPR Training Updates

The new training materials for BLS [for Healthcare Providers] and ACLS are now available in the Library. The Heartsaver/CPR training materials are on order.

### Fee Statements for Overdue Items

When Library items have not been returned or renewed in the specified time frame, you will receive overdue notices and ultimately a statement that is essentially a bill for replacement of the item. Please be aware that the statement may not always reflect the actual replacement cost. The Library will make the final determination of the actual replacement fee that you are responsible for.

Of course, it is best to return the item or request a renewal on or before the due date to avoid notices altogether.

### Zika Information

The Zika virus web site (<http://www.cdc.gov/zika/>) at the U.S. Centers for Disease Control and Prevention provides comprehensive information on surveillance, prevention, and current knowledge about Zika virus disease, including mosquito control.

In addition, the Texas DSHS Zika web site (<http://www.texaszika.org/>) contains general and state-specific information.

### Interlibrary Loan

The Library can borrow books for you from other libraries at no charge to you (official business only). The typical loan period is 4 weeks, counting shipping and return time. When a requested book arrives, we will contact you via email or by the method you specify.

Lending libraries will sometimes allow renewals for various periods of time, but this is not guaranteed. Requests for renewals should be submitted before the due date, as with books you borrow from our Library. The cost of unreturned books will be charged back to you, and higher authority may be contacted to help recover books and/or fees.

Required class textbooks will not be obtained on interlibrary loan because of the relatively short length of typical loan periods, the unreliability of renewals, and the potential need to borrow copies of the same book for multiple students.

If only a section or chapter of a book is needed, the Library can request a copy of those specific pages.

### Book Sale

The Library's book sale continues. With the exception of a handful of brand new books that cost \$10.00 each, the price for each item is \$1.00, including multi-volume sets.

## Thank You

- Derrith Bondurant and Melinda Morris, Institutional Advancement
- Michelle Harris, Academic Administration
- Don Kessel, Nathan Poole, Jim Post, Jeremy Blankenship, I.T.

- Donna Mann, Family Medicine
- John Moore and Jeff Johnson, Public Affairs
- Daniel Sandifer, Police
- Stacy VanLeer, Gift Shop
- Housekeeping

---

## New Books

### Hours

8:00 a.m. - 5:00 p.m., Monday - Friday
